## **DETAILED ACTION**

### ***Response to Remarks***

Applicants' arguments, filed on 3/10/2008, have been approved and entered. They have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 287-300 are rejected under 35 U.S.C. 102(b) as being anticipated by Naito (US 5,707,779).

Naito discloses a composition comprising a dye covalently linked to a moiety having a reactive group. The composition comprises a dye molecule, wherein the dye molecule has a molecular structure containing an aromatic skeleton and three or more dye skeletons which respectively bond to the aromatic skeleton via a chemical bond formed by a condensation reaction. The dye molecule has a molecular structure containing a heterocyclic aromatic skeleton and three or more dye skeletons which bind to the heterocyclic aromatic skeleton so as to form a  $\pi$  electron conjugated system (col.

2, col.4-17, col. 19-20), which is viewed to be inclusive of the additional reactive group Rx. Col. 30 shows a structure of formula (9) where the composition comprises a moiety comprising a reactive group CF3. see also col. 35-36, which shows fused aromatic ring. Col. 48 shows composition comprising charged or polar moiety, which will inherently increase solubility, which is viewed to be inclusive of instant claim 297.

Claims 301-304 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 307-321 are allowed.
